

LET'S DRAW LOONER BUNNY!

1. Start with the basic shapes of a circle, ovals and triangle.

2. Draw 'Foundation Lines' (shown here in blue) to help begin lining up the figure & face.

This helps give your drawing foundation and makes it more solid.

3. Using the Foundation Lines, add some basic shapes for arms, hands and feet.

4. Now you can draw the face. The Foundation Lines will help you. Have fun with different expressions too!

5. Add some final details like the toes and wings.

6. You can now erase the foundation lines to make a nice, clean drawing. But they're still there invisibly, helping your drawing feel solid.

Keep practicing and having fun!
